Shipping and Delivery Guide

Domestic and international shipping, delivery timelines, tracking, and delivery support

Purpose: This document is a fictional sample created for an academic Retrieval Augmented Generation project. It is designed to provide clear policy content for PDF chunking, embeddings, FAISS retrieval, and semantic search.

Quick Reference

Topic	Policy Summary
Order processing	Usually within 1 business day
Domestic metro delivery	Usually 3 to 5 business days
Other domestic delivery	Usually 5 to 8 business days
International delivery	Usually 7 to 15 business days
Tracking link	Sent by email and SMS after shipment

1. Shipping Coverage

Orders can be delivered domestically and to selected international destinations.

Domestic shipping

Standard delivery is available to serviceable postal codes. Some remote locations may require additional delivery time.

International shipping

International delivery is available to more than 50 countries. Available destinations are shown during checkout.

2. Delivery Time Estimates

Standard delivery

• Metro locations usually receive orders within 3 to 5 business days.

• Other domestic locations usually receive orders within 5 to 8 business days.

• International orders generally arrive within 7 to 15 business days depending on destination and customs processing.

Processing time

Most orders are processed within 1 business day. Orders placed on weekends or public holidays are processed on the next business day.

3. Shipping Charges

Domestic charges

Standard domestic shipping is free for orders above Rs. 999. Orders below this amount are charged a standard shipping fee shown at checkout.

International charges

International shipping costs vary by destination, package weight, and delivery service. The final amount is displayed before payment.

Customs and import fees

International customers are responsible for customs duties, import taxes, or local fees charged by the destination country unless checkout states otherwise.

4. Order Tracking

Tracking notification

When an order ships, the customer receives a tracking link by email and SMS. The tracking page displays the latest available carrier status.

Tracking delays

Tracking information may take up to 24 hours to appear after shipment confirmation. If the status does not change for 3 business days, contact support.

5. Delivery Issues

Delayed orders

Weather, customs inspection, local holidays, and carrier disruptions can delay delivery. Support can help investigate orders that exceed the estimated delivery window.

Incorrect address

Customers should review the delivery address before completing checkout. Address changes are only possible before the order is handed to the carrier.

Lost packages

If tracking shows delivery but the package cannot be found, customers should check with household members and nearby safe locations before contacting support.
